We, **Vaigha Technologies Private Limited** (registered under the Kerala Startup Mission and Startup India), present our Temple Management Project – " **TEMPLE CLICK** " before the Temple authorities.

## ➤ **MODULE (1) - OFFERING MANAGEMENT**

- Designed to be easy to use, even for people without computer knowledge.
- Works on computers, android mobiles, tablets, or POS devices.
- Supports typing in regional languages.
- Bookings can be recorded as Paid / Advance / Credit / Pending.
- Stores devotee name & star, email ID, and mobile number for future reference.
- Receipts can be sent via WhatsApp after billing.
- Payments can be categorized as Cash, QR, Card, DD, Cheque, or Net Banking.

- Works even without an internet connection (if required).
- Reports can be generated daily, weekly, monthly, yearly, or for custom dates.
- Temples can operate multiple booking counters using computer, mobile, or both as needed.

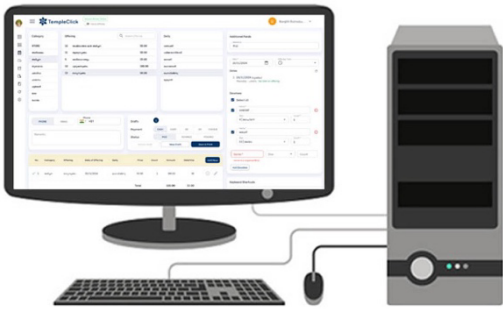

➤ **MODULE (2) - DONATION MANAGEMENT**

- All types of donation heads related to the Temple can be easily managed through this module.
- Donation receipts can be sent via WhatsApp.
- Detailed reports can be generated daily, weekly, monthly, yearly, or for any custom date range.
- Each donation head has a separate billing number series for transparency and tracking.

➤ **MODULE (3) - ACCOUNTING AND FINANCE MANAGEMENT**

- Manage all income and expense heads.
- Generate Profit & Loss (P&L) statements.
- Track multiple bank accounts.
- Maintain opening and closing balances.
- Monitor cash in hand and net balance.
- Use vouchers for simplified transaction recording.
- Manage multiple payment methods: Cash, QR, Card, DD, Cheque, Net Banking.

Website

Temple Counter

A central white rectangular box containing a login form. It has two input fields: 'Email' and 'Password'. Below the 'Password' field is a link that says 'Forgot Password?'. To the right of the link is a blue button with the text 'Login'. Two thick black arrows point upwards from the top of the box towards the 'Website' and 'Temple Counter' labels. Two thick black arrows point downwards from the bottom of the box towards the 'POS' and 'Mobile App' labels.

POS

Mobile App

➤ **MODULE (4) - INVENTORY & STOCK MANAGEMENT**

- Monitor stock-in and stock-out with accurate timelines.
- Real-time stock tracking to prevent wastage or shortages.
- View store sales data and reports.
- Manage purchases from multiple vendors.
- Maintain vendor-wise and item-wise purchase history and billing records.
- Generate detailed inventory reports.

➤ **MODULE (5) - ONLINE PUJA & DONATION MANAGEMENT**

- All online puja & donation booking services through TempleClick's website and mobile app are completely free for the Temple.
- No service charges are required from the Temple.
- Our online booking system can be seamlessly integrated into the Temple's existing website at no additional cost.
- All booking information is updated live on the Temple's dashboard.
- Offerings are confirmed only after successful payment via the payment gateway, ensuring Temples perform only paid services.
- Payment gateway charges and platform fees are borne by the devotee, not the Temple.
- Devotees receive booking confirmations and updates via SMS, WhatsApp, or Email.

➤ **CLOUD FEATURES & ADVANTAGES**

- Temple admins can access and manage all data remotely using a laptop or mobile, including puja bookings, donations, accounts, inventory, and reports.
- Billing can be done simultaneously from multiple counters using computers or mobile devices.
- As a cloud-based platform, TempleClick ensures Temple data is always secure, backed up, and accessible.
- Requires only a basic computer configuration or Android device.
- No need for costly local servers or complex networking.
- Temple admins can create multiple staff accounts and assign permissions based on hierarchy.
